SATURDAY'S Daily, September 8.

Dr. Waite has received an electric battery which permits the extracting of a tooth without the least possible pain.

There is a rumor afloat that Big Bug mines for \$250,000, and that he and his new sack are en route to transform this section into populism. We hope the sale is so, and also that the people are to get a whack at the sack.

T. C. Forgarty was before Judge Fleury to-day, charged with the theft of \$50 from a fellow workman in the west. Prescott railroad yards. It is questionable if a workman has the amount living loose about his person now-a-days, and laboring under such an idea, the prisoner was discharged.

A young man of effeminate ideas and a proselyte of Mrs. Lease, concealed his elegant form last night in the latest rig of ladies wearing apparel at a downtown resort. He handled himself so obnoxiously in the adopted set that an officer caught onto the disguise and ran him before Judge Fleury, where he dug up \$7.50 for his fun.

Mrs. Col. A. L. Hough died at Whipple Sunday morning at 3 o'clock after an illness of only a few days. She was stricken with paralysis on Thursday evening and never regained consciousness. Her husband accompanied them.

Among the new names to greet the public to-day for political honors in the line of sheriff, that of Captain DeWitt is presented, also that of the consideration of republicans. Mr. De Witt is one of the earliest of pioneers and carries with his long citizenship a very high regard from all who have known him, and in taking the step he now does, popular approval seems to be based on it. If successful, he can be depended on to make a winning fight. He is one of the few men in politics against whom not a word of reproach can be uttered.

Word has reached town that a new and rich strike of ore has been made in the War Eagle lode in the Bradshaws, owned by Lester Jackson. The size of the vein is reported as 18 inches in width and in character is exactly like the famous Crowned King ore. The War Eagle runs parallel to the above mine, and is on the same lead as the Gladiator. It is one of the oldest mines in the Bradshaws and its prominence now in mining affairs, can be attributed solely to the faith and persistence of its present owner in "staying with it." The strike has occasioned much excitement in the Bradshaws and given the district somewhat of a lead in consequence.

Rev. C. J. Chase, of the Methodist Church, will complete the work of the present conference year to-morrow. The church has been very prosperous under his inspiration, and its members have united in a unanimous request to have him returned here next year.

PERSONAL MENTION.

Henry E. Lantry left for the east to-day.

W. O. O'Neill is expected back from New York next week.

The hat social given by the Epworth League at the Methodist parsonage last evening, proved a very pleasant affair. The social derived its name from the fact that the principal feature of it was for the men present to trim a lady's hat. James Hanna won the first prize, while J. W. Sharp stood at the foot of the class.

Johnny Moser, the seven year old son of Adolf Moser, was seriously injured last evening and fears are entertained for his recovery. He was engaged, with several other boys, in playing with discarded horse cart, when he fell and a wheel of the cart passed over his head. John Boyle, a boiler maker of Los Angeles, arrived yesterday, and comes to take a permanent position on the new road.

Hon. W. A. Clark, of the United Verde is said, is en route to this section, intending to make a lengthy stay.

The name of Abe Prather seems to be prominently mentioned by his many friends as a suitable man for sheriff on the democratic side of the house.

Frank McGee came in from the Jerome railroad yesterday, and says that fifteen miles of road are now in operation. Track laying is progressing lively, and it is the intention to have the road completed now by October 28.

W. W. Vanderlilt returned yesterday from a jaunt to the various mining districts, while in the Bradshaws he visited several mines, and said that the progress being made in developing many claims is very noticeable. He verifies the news of the rich strike in the War Eagle, particularly.

Ralph Dillon's many friends throughout the county have been urging him to become a candidate for county recorder and he has about decided to consent to allow his name to be presented to the democratic convention. He is a capable young man and would probably poll as many votes as any democrat in the county.

In to-day's announcement column the name of W. H. Hall is presented to the republican county convention for consideration. Mr. Hall seeks the office of sheriff and in his desires backs it up on the encouragement many of his friends are extending for him to make the race. He is among the oldest residents in this section, is conscientious and would make a faithful and fearless official.

Morris Goldwater returned to-day from an extended trip to the east, and during his absence purchased a very large stock of furniture for the trade and for the household on the heels of his arrival. Barry takes the train to-morrow for the clothing and dry goods centers of New York to make the full purchases of his firm in that line, and from his manner and language, will probably outdo his former efforts to please patrons. This firm is an energetic combination, and the taste they display is certainly to be commended.

A subscription paper is being circulated to-day for the purpose of securing funds to inaugurate a public park and race track, the grounds selected being located west of Sam Miller's house, in the pines, and are owned by him. So far over \$1,000 has been received, and the enterprise is being generously encouraged by all who have been asked for aid. With his usual generosity Mr. Miller has agreed to donate the necessary ground for the purpose for a period of ten years, free of charge. Engineer Thompson, of the S. F. & P. & M., is making a survey of the ground and states that a fine one-half mile track can be made at nominal expense. The estimated cost of the grounds, including fences, buildings and gradings will not exceed \$35,000, a small sum, when it is taken into consideration the benefit such an institution will be to the city in encouraging sport and in also affording a place located so beautifully and easily for general recreation. It will be a joint stock company, and each subscriber will be entitled to shares of stock in proportion to the amount subscribed. The plan is a good one and the promoters should be encouraged in their efforts by all.

SLEEPING CAR DECISION.

Recently a decision regarding the rights of passengers in sleeping cars was handed down by the Court of General Terms in the Fifth Department of New York, which further defines the rights of passengers. Courts in New York and other states have held that the sleeping car company was responsible for the loss of money and other property stolen while the passengers were asleep. In the case just decided the passenger, a woman lost a sum of money, which she had in a small satchel. It was apparent from her testimony, and that of the porter, that she had not left the purse while she was in the dressing room at one end of the car. The general term judges decided that it was essential for the plaintiff to show that the money was taken from the berth while she and her husband were sleeping in the room. The probabilities, however, of the case were against that theory, and if she lost her purse or it was stolen from her in the dressing room, the company would not be liable, for the only negligence complained of was that the company had failed to maintain a constant watchfulness over the interior of the car while the passengers were sleeping. The distinction between the loss of property from the berth or in the dressing room is slight, but was sufficient to lead the judges to refuse to allow a verdict.—Ex.

## LOWRY'S FIRST FIGHT.

Bob McDaniels, Wanted for the Big Bug Robbery, Resists and Wounds The Sheriff.

Lowry Returns the Compliment, Breaking McDaniels' Arm in Two Places.

During the four years which Sheriff Lowry has been in office, he has had pretty smooth sailing so far as his experience with criminals has been concerned. It was not until yesterday afternoon, (Tuesday, September 4), that his authority had been disputed, when he called on a man to "throw up" and surrender.

About 4 o'clock yesterday he had a thrilling experience on the north slope of the Black Hills, near a grading camp on the Jerome railroad, and an experience which proved a fortunate one for him, in that he escaped with very slight flesh wound on his right arm, instead of losing his life.

He and his deputy, George Merritt, have for several days been on the trail of Bob McDaniels, suspected of being one of the principal actors in the recent robbery of the Commercial company's store at Big Bug. They had

FOLLOWED THEIR MAN

To a grading camp on the Jerome railroad, but there lost all trace of him. On Tuesday, August 28, he had left the camp and had not been seen afterwards. They found evidence of the man having camped near there, but were unable to locate him until yesterday afternoon.

Yesterday afternoon they ran across his bed rolled up and covered with brush in a dense cedar thicket, and while Sheriff Lowry was beating around through the brush, he heard some one stumble against a tin can. Peering through the branches of the thicket, he saw his man standing within twenty feet of him. When McDaniels found he had been discovered, he called out: "Who are you?"

Lowry replied, "I am the sheriff; throw up your hands." "Gentlemen," McDaniels opened fire on the sheriff, the first ball
